Good Luck...and Thank You for taking up the Challenge

## Good Luck...and Thank You for taking up the Challenge

### PRE-TRIP INSPECTION

The driver is always responsible for knowing the mechanical condition of the vehicle. While the maintenance crew or department is responsible for giving the driver a vehicle that is in top mechanical condition, it is the driver who must assure, at the start of each trip that the vehicle assigned is in good condition.

**PURPOSE:** To test driver's ability to conduct a complete Pre-Trip Inspection (without starting the truck) noting any defaults along the way. Each vehicle inspected will contain 5 defects. Each driver is allowed 1 loop around the vehicle. Since the vehicles are not being started, each driver is given 10 minutes to conduct the inspection.

**SCORE:** 50 points perfect score

**DEMERIT:** 50 points for event not completed prior to last driver completing the Course

10 points for each defect found (5 defect)

Maximum time 10 mins.

### ALLEY BACK-UP CHALLENGE

The driver is required to back his vehicle in a continuous movement throughout a simulated alley without touching side barriers or the rear barrier, and he must come within a certain distance of the rear barrier.

**PURPOSE:** To test drivers to maneuver their vehicle backwards through a narrow space and to judge the distance to the rear of the vehicle

**SCORE:** 50 points for perfect score

**DEMERIT:** 10 points for each instance of hitting side barricades

10 points for each stop ordered by judge

5 points for each instance of running over a curb line or taking more than one free pull-up

**DEMERIT:** 10 points for each instance of hitting or scraping a barricade

10 points for each stop ordered by a judge

5 points for each instance of stopping or repositioning vehicle

### PROBLEM DIMENSIONS:

Four barricades each ten feet long are used in sets of two. Place the sets off center from each other so that the distance between the two sets is equal to the length of the vehicle and so that one barricade in each set is in line with each other.

The distance between barricades in each set is 11 feet.

## PARALLEL PARKING CHALLENGE

Driver parallel parks, trying to put the truck as close as possible to a "curb" line without going over, or hitting barricades placed in front of and behind the parking spot. Crossing the inside line or hitting a barricade results in a score of zero points. The driver is allowed only to back into the parking spot and pull forward once to square up the vehicle. Driver must stop, set the parking brake and sound the horn to signal the judges to measure the distance from curb line to the middle of the tire that is furthest away from the line.

**SCORE:** 50 points for perfect score

**DEMERIT:** 10 points for each instance of hitting or scraping a barricade  
10 points for each stop ordered by a judge  
5 points for each instance of stopping or repositioning vehicle

### PROBLEM DIMENSIONS:

A barricade of ten feet long is used. Driver must parallel park and must be within 5 mins

## TARGET STOP CHALLENGE

The driver is required to stop his vehicle on/near the target, where it will be measured by a drop line from the center of the front bumper. Points will be given according to where the line drops. *Driver is not allowed to lean out the window to judge the distance.*

**PURPOSE:** This problem tests the driver's ability to judge the location of the center of the front bumper

**SCORE:** 50 points for perfect score 'bullseye'  
Points awarded per scores indicated in circles (see illustration below)

**DEMERIT:** 50 points if vehicle crossed target or stops more than 30" from target  
10 points for each instance of stopping more than once  
10 points for leaning out the window or lifting off the seat

### MEASUREMENTS:

From the center of the front bumper line drops to target board

## STOP TRAIN TRACK CHALLENGE

The driver is required to approach a line in a continuous movement and to stop the vehicle with the front bumper within 6 inches of the line. *Driver is not allowed to lean out the window to judge the distance.*

**PURPOSE:** This problem tests the driver's ability to judge the location of the front bumper

**SCORE:** 50 points for perfect score

**DEMERIT:** 50 points if vehicle crossed line or stops more than 30" from line  
2 points if vehicle stops 6" – 12" of line  
4 points if vehicle stops between 12" and 24" from line  
6 points if vehicle stops between 24" and 36" from line  
10 points for each instance of stopping more than 36"  
10 points for leaning out the window or lifting off the seat

### POSITION MEASUREMENT:

From the closest point on the bumper excluding bumper bolts, etc.

### **DIMINISHING CLEARANCE CHALLENGE**

**PURPOSE:** To test driver's ability to judge the width of the truck as it passes through two rows of narrowing obstacles.

**SCORE:** 50 points for perfect score

**DEMERIT:** 20 points for hitting each of the first six markers  
10 points for hitting each of the last four markers  
20 points for each instance of stopping or any jerky movements

#### **PROBLEM DIMENSIONS:**

Two rows of five markers are set up with 15 feet between each marker in the row. The width of each set of markers diminishes as follows:

First set – truck width plus 10"  
Second set – truck width plus 8"  
Third set – truck width plus 6"  
Fourth set – truck width plus 4"  
Fifth set – truck width plus 2"

### **KENT'S MAILBOX CHALLENGE**

The driver is required to drive the vehicle in a continuous movement through a close right hand turn.

**PURPOSE:** To test driver's ability to maneuver the vehicle through close turns without impacting on curbs, walls, abutments or parked vehicles

**SCORE:** 50 points perfect score

**DEMERIT:** 10 points for each instance of crossing a curb line  
10 points for each instance of stopping or repositioning vehicle
